

DEEPANSHU

Data Analyst | Web Scraping & AI Automation Specialist
deepanshu2661@gmail.com | +91 9310033561 | New Delhi, India

PROFILE

Data Analyst and MIS professional specializing in web scraping and AI-driven automation, with a track record of turning manual reporting into automated, data-backed workflows. Expert in Advanced Google Sheets & Apps Script and Advanced Excel & VBA, and skilled in Python (Selenium, BeautifulSoup) for large-scale data extraction and tender/pricing analysis. Strong communicator with four years of prior hospitality and sales experience, bringing a practical, business-first lens to data work.

EMPLOYMENT HISTORY

Sr. MIS & Data Analyst (Web Scraping & AI Automation) — *Crystal Works* 08/2026 – Present | New Delhi

- Built end-to-end web scraping pipelines in Python (Selenium, BeautifulSoup) to extract tender data from government and external portals, significantly reducing manual data collection time.
- Analyze historical tender data to identify which vendors previously won similar tenders and at what prices, directly informing bid pricing strategy.
- Own end-to-end delivery of internal web apps built in Google Apps Script, replacing manual spreadsheet processes across teams and workflows.
- Design advanced, interactive UI/UX dashboards for leadership reporting, reducing the time spent compiling management reports.
- Prepare daily, weekly, and monthly MIS reports using Advanced Excel (VLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, Pivot Tables), improving reporting turnaround.
- Apply AI automation tools to accelerate data cleaning and analysis, reducing manual processing time on recurring reports.

MIS Executive & Jr. Data Analyst (Web Scraping) — *Sam International* 01/2026 – 08/2026 | Karol Bagh, New Delhi

- Learned and applied web scraping fundamentals to collect and structure external data for business reporting and recurring reports.
- Built first internal web apps and automation scripts in Google Apps Script under senior guidance, automating previously manual tasks.
- Assisted in designing dashboards for management reporting using Excel, Google Sheets, and AI-assisted visualization tools.
- Prepared daily, weekly, and monthly MIS reports using Advanced Excel functions including VLOOKUP, INDEX-MATCH, SUMIFS, COUNTIFS, and Pivot Tables.
- Wrote Excel VBA scripts to automate recurring data extraction and formatting tasks, saving significant manual effort each week.
- Developed Google Apps Script solutions for automated data syncing, email triggers, and scheduled reporting.
- Planned and managed social media marketing activities, including content scheduling and performance tracking, to support brand visibility.

Night Manager — *Hotel Palm Greens* 10/2022 – 10/2025 | New Delhi

- Oversaw nightly hotel operations, ensuring exceptional guest experiences and adherence to service standards.
- Managed front desk staff, facilitating training and performance evaluations to enhance team effectiveness.
- Coordinated with security and maintenance teams to address guest concerns promptly and maintain a safe environment.

Data Analytics Intern — *Orangus Infotech Pvt. Ltd.* 04/2025 – 09/2025 | New Delhi

- Actively involved in data collection, data cleaning, statistical analysis, and data visualization, generating reports and learning advanced data analytics strategies to provide actionable business insights.

Account Executive — *Rhombus Enterprises* 08/2020 – 08/2021 | Gurgaon

- Cultivated strong client relationships, enhancing customer satisfaction and retention.
- Conducted market research to identify new business opportunities and inform sales strategies.
- Collaborated with cross-functional teams to streamline the sales process and improve operational efficiency.
